SHORE GOLD INC. ANNOUNCES FIRST QUARTER RESULTS

Shore Gold Inc. (“Shore” or the “Company”) reports that the unaudited results of Shore’s operations for the quarter ended March 31, 2017 will be filed today on SEDAR and may be viewed at www.sedar.com once posted. A summary of key financial and operating results for the quarter is as follows:

Overview

The Company’s Star – Orion South Diamond Project (“Project”) is situated in the Fort à la Corne kimberlite field in central Saskatchewan. The Project includes the 100 percent Shore owned Star Diamond Project, as well as Star West and the Orion South Kimberlite, which fall within the adjacent Fort à la Corne Joint Venture (“FALC-JV”). Shore has a 69 percent interest in the FALC-JV and Newmont Canada FN Holdings ULC (“Newmont”) has a 31 percent interest.

Shore recently announced that it has successfully completed significant aspects of test work towards an updated feasibility study on the Project (See SGF News Release dated March 6, 2017). The work completed in recent months includes: X-ray Transmission (“XRT”) recovery of diamonds from Star pyroclastic kimberlite, ore processing data review, diamond parcel characterization, kimberlite particle size analysis and overburden removal investigations. These programs investigate the use of new technology for the efficient excavation of the open pit and improvements to the flow-sheet of the diamond processing plant, while simultaneously reducing pre-production capital costs and the time to initial diamond production.

Results

For the quarter ended March 31, 2017, the Company recorded a net loss of \$0.9 million or \$0.00 per share compared to a net loss of \$1.4 million or \$0.01 per share for the same period in 2016. The losses during these quarters were due to operating costs and exploration and evaluation expenditures incurred by the Company exceeding interest income earned on cash and cash equivalents and short-term investments. Losses during the three months ended March 31, 2017 were lower than the same period in the previous year primarily due to higher expenditures that were incurred in the quarter ended March 31, 2016 relating to the 2016 drilling program. Exploration and evaluation expenditures incurred during the quarter ended March 31, 2017 were primarily related to work relating to geotechnical investigations and test work for the Project.

Selected financial highlights include:

	As at March 31, 2017	As at December 31, 2016
Condensed Consolidated Statements of Financial Position		
Current assets	\$ 2.3 M	\$ 3.2 M
Capital and other assets	1.5 M	1.5 M
Current liabilities	0.2 M	0.3 M
Premium on flow-through shares and long-term liabilities	0.8 M	0.8 M
Shareholders’ equity	2.9 M	3.6 M

	For the Quarter Ended March 31, 2017	For the Quarter Ended March 31, 2016
Consolidated Statements of Loss and Comprehensive Loss		
Interest and other income	\$ 0.0 M	\$ 0.0 M
Expenses	0.9 M	1.6 M
Flow-through premium recognized in income	0.0 M	0.2 M
Net and comprehensive loss for the period	(0.9) M	(1.4) M
Net loss per share for the period (basic and diluted)	(0.00)	(0.01)

Condensed Consolidated Statements of Cash Flows	For the Quarter Ended March 31, 2017	For the Quarter Ended March 31, 2016
Cash flows from operating activities	\$ (0.9) M	\$ (1.4) M
Cash flows from investing and financing activities	0.0 M	0.0 M
Net decrease in cash	(0.9) M	(1.4) M
Cash – beginning of period	2.8 M	4.0 M
Cash – end of period	1.9 M	2.6 M

Outlook

The 2016 core drilling programs were required to further expand the internal stratigraphy of the Orion South and Star Kimberlites extending and in-filling geological continuity from the successful programs of 2015. The Company intends to update the previous Feasibility Study with a revised mine plan, where new technology is applied to more efficiently remove the sand and clay of the overburden, in addition to the application of new technology in the processing plant. Preliminary calculations suggest that such an updated feasibility study can positively change the economic model for the Project by increasing the Mineral Reserve estimate and reducing the pre-production capital costs and schedule to diamond production.

In addition, the Company is proceeding with the environmental assessment process and is continuing to seek opportunities for development capital through participation in the Project by a third party or a syndicate of investors.

As of May 3, 2017, the Company had approximately \$2.1 million in cash and cash equivalents and short-term investments (excluding \$0.8 million in restricted cash). A portion of the Company's cash and cash equivalents and short-term investments will be used to advance certain aspects of the Project, including work required for an updated feasibility study, the environmental assessment process, as well as for general corporate matters.

Caution Regarding Forward-looking Statements

This news release contains forward-looking statements within the meaning of certain securities laws, including the "safe harbour" provisions of Canadian securities legislation and the United States Private Securities Litigation Reform Act of 1995. The words "may," "could," "should," "would," "suspect," "outlook," "believe," "plan," "anticipate," "estimate," "expect," "intend," and words and expressions of similar import are intended to identify forward-looking statements, and, in particular, statements regarding Shore's future operations, future exploration and development activities or other development plans contain forward-looking statements. Forward-looking statements in this news release include, but are not limited to, statements related to the Feasibility Study; statements relating to mineral resources and/or reserves; statements related to the approval of the development of the Star - Orion South Diamond Project; statements relating to future development of the Star - Orion South Diamond Project and associated timelines; the environmental assessment and permitting process; the Company's intention to seek developmental capital through participation by a third party or syndicate of investors; Shore's objectives for the ensuing year, the optimization of the feasibility study, anticipated capital and operating cost savings and the anticipated positive change in the economic model for the Project; the aim of Shore to undertake additional studies and the potential updating of the feasibility study.

These forward-looking statements are based on Shore's current beliefs as well as assumptions made by and information currently available to it and involve inherent risks and uncertainties, both general and specific. Risks exist that forward-looking statements will not be achieved due to a number of factors including, but not limited to, developments in world diamond markets, changes in diamond valuations, risks relating to fluctuations in the Canadian dollar and other currencies relative to the US dollar, changes in exploration, development or mining plans due to exploration results and changing budget priorities of Shore or its contractual partners, the effects of competition in the markets in which Shore operates, the impact of changes in the laws and regulations regulating mining exploration and development, judicial or regulatory judgments and legal proceedings, operational and infrastructure risks and the additional risks described in Shore's most recently filed Annual Information Form, annual and interim MD&A, news releases and technical reports. Shore's anticipation of and success in managing the foregoing risks could cause actual results to differ materially from what is anticipated in such forward-looking statements.

Although management considers the assumptions contained in forward-looking statements to be reasonable based on information currently available to it, those assumptions may prove to be incorrect. When making decisions with respect

to Shore, investors and others should not place undue reliance on these statements and should carefully consider the foregoing factors and other uncertainties and potential events. Unless required by applicable securities law, Shore does not undertake to update any forward-looking statement that may be made.
